

TechMart Inc.

Official Product Catalog — 2025 Edition

This catalog contains detailed descriptions, technical specifications, pricing information, inventory levels, expiry dates, and annual sales performance data for all active products in the TechMart portfolio. It is intended for use in internal review, procurement planning, and AI-based Retrieval-Augmented Generation (RAG) system testing.

Products are organized across four categories: Consumer Electronics, Smart Home Devices, Health & Wearables, and Office & Productivity. Each product entry includes a descriptive overview followed by a structured data table for precise retrieval.

Contents

8	FocusLens Webcam 2K	Office & Productivity	9

1. NovaSpark Pro X Laptop

Product Description

The NovaSpark Pro X is TechMart's flagship laptop, engineered for professionals who demand uncompromising performance. Powered by the latest 13th-generation Intel Core i9 processor paired with 32 GB of LPDDR5 RAM, it handles everything from large-scale data science workloads to high-resolution video editing without breaking a sweat. The 15.6-inch OLED display delivers true blacks, a 120 Hz refresh rate, and 100% DCI-P3 colour coverage, making it a favourite among creative professionals.

Storage is handled by a blazing-fast 2 TB NVMe SSD that reaches sequential read speeds of 7,000 MB/s, ensuring near-instant application launches and file transfers. The dedicated NVIDIA GeForce RTX 4070 GPU with 8 GB GDDR6 VRAM enables real-time ray tracing and AI-assisted rendering. Despite its power, the chassis remains slim at just 17.8 mm thick and weighs 1.92 kg thanks to a premium CNC-machined aluminium body.

Connectivity options include Thunderbolt 4, USB-A 3.2, HDMI 2.1, a full-size SD card reader, and Wi-Fi 6E with Bluetooth 5.3. The 86 Wh battery supports up to 14 hours of mixed usage, and the included 140 W USB-C GaN charger can refill the battery to 50% in just 30 minutes. The NovaSpark Pro X ships with Windows 11 Pro and a two-year on-site warranty.

2024	5,630	\$12,382,870	1.2%	Asia-Pacific

2. LunaView 4K Monitor

Product Description

The LunaView 4K is a 27-inch IPS monitor designed to bring studio-grade colour accuracy to the everyday workspace. With a native 3840×2160 resolution, Delta E < 2 factory calibration, and 99% Adobe RGB colour coverage, it is equally suited for professional photo retouching, CAD design, and extended coding sessions. The anti-glare coating and flicker-free backlight ensure comfortable all-day use without eye strain.

The monitor supports HDR600 with a peak brightness of 600 nits, and its USB-C port delivers up to 90 W of power delivery, allowing users to charge a laptop and transfer data through a single cable. An ergonomic stand provides height, tilt, swivel, and pivot adjustments, while the VESA 100×100 mount compatibility makes arm integration effortless.

3. EchoNest Smart Speaker

Product Description

The EchoNest Smart Speaker redefines home audio with a 360-degree sound stage powered by six custom-tuned drivers and two passive radiators. Its built-in AI voice assistant responds to natural language commands to control music playback, smart home devices, timers, reminders, and general knowledge queries. The far-field microphone array can detect voice commands from up to 8 metres away even in noisy environments.

Privacy is taken seriously: a physical mic-mute button disconnects the microphones at the hardware level, and all voice processing occurs on-device using a dedicated neural processing unit. The speaker supports Spotify Connect, Apple AirPlay 2, Bluetooth 5.2, and Wi-Fi 6, making it compatible with virtually any ecosystem. A fabric-wrapped body in three colour options — Charcoal, Sand, and Forest Green — blends seamlessly into any interior.

4. ClearAir Pro Air Purifier

Product Description

The ClearAir Pro is a smart air purifier built for medium to large rooms of up to 60 square metres. Its four-stage filtration system — comprising a pre-filter, True HEPA H13 filter, activated carbon layer, and UV-C sterilisation stage — removes 99.97% of particles as small as 0.3 microns, including dust, pollen, pet dander, mould spores, and airborne bacteria.

A built-in air quality sensor continuously monitors PM2.5, CO2, humidity, and temperature, automatically adjusting fan speed to maintain optimal air quality. The companion mobile app provides real-time air quality readings, filter life tracking, scheduling, and historical data charts. With a noise level as low as 22 dB in sleep mode, the ClearAir Pro operates silently throughout the night.

5. PulseTrack Ultra Smartwatch

Product Description

The PulseTrack Ultra is a health-first smartwatch that combines medical-grade biometric sensors with an elegant stainless steel design. It continuously monitors heart rate, blood oxygen saturation (SpO2), electrodermal activity, skin temperature, and features an FDA-cleared single-lead ECG that can detect atrial fibrillation. An advanced sleep tracking algorithm analyses sleep stages and provides personalised recommendations for recovery.

The 1.9-inch AMOLED always-on display is protected by sapphire crystal glass and is visible in direct sunlight at 2,000 nits peak brightness. The watch is rated 5ATM water resistant and can be worn while swimming. Built-in GPS with multi-band support (GPS, GLONASS, Galileo, BeiDou) provides highly accurate outdoor activity tracking. Battery life reaches 10 days in standard mode and 40 hours with GPS active.

6. VitaSense Blood Glucose Meter

Product Description

The VitaSense is a clinically validated blood glucose monitoring device designed for people managing diabetes at home. Using electrochemical biosensor technology, it delivers accurate readings within 5 seconds using a blood sample as small as 0.5 microlitres. The measuring range spans from 1.1 to 33.3 mmol/L (20–600 mg/dL), covering both hypoglycaemic and hyperglycaemic states.

Readings are automatically synced to the VitaSense Health app via Bluetooth, where users can track trends, set glucose target ranges, log meals and medication, and share reports with healthcare providers as PDF exports. The device stores up to 500 readings on-board and runs on a standard CR2032 battery lasting approximately 12 months. Each kit includes the meter, 50 test strips, 50 lancets, a lancing device, a carrying case, and a quick-start guide.

7. DeskMate Standing Desk Pro

Product Description

The DeskMate Standing Desk Pro is a motorised height-adjustable desk built for modern hybrid workers. Its dual-motor lift system raises and lowers the desktop smoothly from 62 cm to 128 cm, accommodating users from 155 cm to 200 cm in height in both seated and standing positions. With a weight capacity of 120 kg, it can comfortably support multiple monitors, docking stations, and other desktop equipment.

The programmable digital controller stores four height presets and features an anti-collision detection system that immediately reverses direction if an obstacle is detected. The spacious 160×80 cm desktop is made from solid bamboo, offering a warm natural aesthetic and excellent surface durability. Cable management grommets and an optional cable tray accessory keep the workspace tidy. The desk arrives flat-packed and assembles in under 60 minutes with included tools.

8. FocusLens Webcam 2K

Product Description

The FocusLens Webcam 2K delivers crisp 2560×1440 video at 60 frames per second, making it ideal for video conferencing, live streaming, and content creation. Its 1/2.9-inch Sony CMOS sensor with f/2.0 aperture performs well in low-light conditions, and the built-in AI auto-exposure and white balance algorithms adapt in real time to changing lighting environments.

A motorised autofocus system locks onto the subject within milliseconds, while a software-based background blur feature removes distracting backgrounds without the need for a green screen. The dual noise-cancelling microphones with beamforming technology capture clear voice audio up to 2 metres away. The webcam connects via USB-C (USB-A adapter included), requires no drivers on Windows 11, macOS 12+, or Ubuntu 22+, and mounts on any monitor or tripod with the included universal clip.
